# 8 Advanced Functions to Enhance the Dissemination of Information:

## Schedule & Information
Information, schedule as well as the details of speakers could clearly be navigated on the sleek layout.

## Self-Registration System
While getting the updated schedule easily, participants could enroll the designated seminar themselves by just using the app. Participants' data can be updated real time and the organizer can save certain manpower.

## Push Notification
Alert your audience with certain news or messages by GPS location based services.

## Business Matching Alert
Just filling in what industry the audiences are working in, and what industry they are interested in, the apps will pair up the business partners automatically.

## In-App Messenger
Audiences can easily be connected with their business partners by sending messages and emoticons through the in-app messenger.

## Instant Text for Q&A Section
Design especially for Q&A Section during seminars, participants could send their questions to the organizers directly through the app. Saving on-site manpower.

## e-Survey
Participants could fill in questionnaire right after the seminar and submit through the app. Save time, and save the earth!

## Content Management System (CMS)
With the tailor-made Content Management System (CMS), all content including text and photos can be easily updated by clerical staff. No more bothering on technicians or professionals.
